PRODUCT'S RANGE PLUS

Extra-thick top plate with removable middle ring.

Single high-efficiency middle burner providing different temperature zones on the hob with maximum heat in the centre and gradually decreasing temperatures when moving towards the edges.

Thanks to the water jet ingress protection rating, awarded after passing specific tests, knobs and knob bezels can be washed at the end of the working day without affecting performance or safety.

The front bar is a comfortable place for the chef to lean on; it means you will remain at a safe distance from the worktop and therefore protects from accidentally knocking against both items lying on the worktop and the knobs.
